## | What We Do

We believe that Digital Signage should be easy-to-use and not be a hindrance, especially to a non-technical user. That is why instead of providing robust "one shoe fits all" solutions, we designed all of our Digital Signage solutions in such a way that you pick the features and services you wish to implement. At Saturn Digital Media we provide innovative Digital Signage solutions that include interactive kiosks, data driven way-finding as well as dynamic reader boards that display relevant up-to-date information and advertising for your audience. It's a common occurrence where Digital Signage displays content in a boring loop, but with our tools you can be creative with your content delivery by scheduling in advance what content should appear, when and for how long. Optionally, if you don't have the time to create your own content, we can create it for you and for an affordable annual fee. We do Digital Signage for hotels, conference centres, restaurants, retailers, hospitals, schools, shopping centres, courts and prisons, etc. Our goal is to provide you with tools that are easy-to-use, creative and smart so that you can get things done hassle-free and improve the overall experience of your customers or guests.

## | How We Do It

Before any agreement is signed, we will meet with you to discuss your Digital Signage project. Our aim is to guide you through the process and help you select a solution that best fits your needs today and in the future. In addition, we will carry out a detailed survey of your property to evaluate the technical requirements needed for the project prior to moving forward. Followed by, you receiving a written report of our findings and recommendations for any changes or upgrades necessary before the installation can take place.

Even though every Digital Signage solution is vigorously tested before launch, it is inevitable that issues will arise requiring of technical attention. However, thanks to our automated problem notification system and 24/7 online monitoring, we'll be alerted to any software or hardware problems before you're even aware that something is wrong. Most issues can be rectified via remote online maintenance, but if problem proves to be more serious then our expert technical support team will make a priority visit to your property.

## | Who We Are

We are an experienced, family owned and operated digital signage company that also provides a vast selection of media production services which include: web development, graphic design as well as audio and video production. Our company is built on family values which makes the satisfaction of every single one of our clients very important to us. We'll go above and beyond, pushing through limitations to help you stand out and increase sales in today's competitive markets.

"Any darn fool can create something complex. But it takes a genius to create something simple."

– Albert Einstein

[Home](#) | [News](#) | [Biography](#) | [Blog](#) | [Videos](#) | [Goodies](#) | [Services](#) | [Contact](#) | [Links](#)

Tom Graczkowski is an award winning composer, graduated from the Music Industry Arts and Digital Applications programs of Fanshawe College. He was recognized in *Keyboard Magazine* as their "Unsigned Artist of the Month" and honored by Studio 306 in Toronto with an "Outstanding Achievement" Award for excellence in audio post production. Tom's TDimension Studios is dedicated to providing audio services of the highest quality on time and on budget. These include original music composition or licensing, sound design and sound editing for visual media including but not limited to TV, commercials, film, animation, web and video games. Tom's music can be heard in numerous independent films, an original score for *The Phantom Tollbooth* ([Click Here](#)) stage play. The play was based on the famous children's adventure novel and modern fairy tale published in 1961, written by Norton Juster. Tom's recent projects also include music for a couple of interactive projects. When scoring a project, Tom's mission is to pieces of music that tell stories and invoke genuine emotions. Tom's "Infected" theme ([Click Here](#)) was the winner of the 2009 Game Audio Network Guild (G.A.N.G.) apprentice music contest and announced during the 7th annual G.A.N.G. Audio Awards ([Click Here](#)) ceremony held in San Francisco, California. His "Dark Knight Redemption" theme ([Click Here](#)) found its way to the top 10 charts 3 times on [Broadjam.com](#). Tom is also the recipient of the John Lennon Songwriting Contest "Honorable Mention" for his electronica composition "Space (Wide Open Place)".

As an informant, Tom was invited to contribute to three books, the *Complete Guide to Game Audio* by Aaron Marks ([Click Here](#)), the *Game Audio Development* by Aaron Marks and Jeannie Novak as well as the *Game Industry Career Guide* by Michael E. Moore and Jeannie Novak. Furthermore, TriOS College in London, Ontario invited him to give a presentation to their game design students about all things game audio. His experience, creativity, positive attitude and desire to go above and beyond make him the right choice for your next project.

## Music Credits

### 2012

- Jason And The Argonauts (stage play score) – [Full Soundtrack Download](#)

### 2011

- Media Centre GUI (loopable theme)
- PC Soccer Game project (menu theme, some sound design)
- Licensed score to Volcano Theatre Company for the Phantom

## What People Say!

*"...his ability to deliver high quality music on extremely short deadlines meshed perfectly with the types of tight project schedules we work under. Tom was super-easy to communicate with and a pleasure to work with. What we most appreciated was his desire and ability to go above and beyond in order to exceed the requirements of the project..."*

– Chanel Summers  
(Co-Owner of Syndicate 17)

*"Tom is a talented musician and composer. His involvement with our company was a blessing and we look forward to working with him on future projects."*

– Vince Murdock  
Director

*"...He created outstanding work in a very timely manner, always responded to any of my questions via e-mail immediately, and took great care to generate professional quality material for our high school play. His talent and dedication as a professional music artist, as well as his pleasant persona, make Tom Graczkowski the perfect composer to call when trying to find the perfect music."*

– Janet DeJean Newton
